

WHAT IS CLAIMED IS:

1. An easily-peelable film, which comprises a sealing layer having the thickness of 1 to 20  $\mu\text{m}$  comprising a polyester resin, and a layer adjacent to the sealing layer and comprising at least one kind of ethylene copolymer selected from the group consisting of an ethylene/unsaturated carboxylic ester copolymer and an ethylene/vinyl acetate copolymer.
2. The easily-peelable film according to claim 1, wherein the ethylene content in the ethylene copolymer is 50 to 85% by weight.
3. The easily-peelable film according to claim 1, wherein the layer adjacent to the sealing layer is a layer comprising an ethylene/unsaturated carboxylic ester copolymer.
4. The easily-peelable film according to claim 3, wherein the ethylene/unsaturated carboxylic ester copolymer is an ethylene-methyl acrylate copolymer or an ethylene-methyl methacrylate copolymer.
5. The easily-peelable film according to claim 1, wherein the thickness of the sealing layer is 3 to 10  $\mu\text{m}$ .
6. A lid member comprising the easily-peelable film as defined in claim 1.
7. A packaging body comprising lid member as defined in claim 6.
